

# SmartNSF Beta 4 has just been released

Go get the fresh release of SmartNSF to [OpenNTF.org](https://openntf.org), give it a go and let us know what you think!

## Changelog

### New features

- Swagger yaml definition file generation and SwaggerUI to browse it (use `?yaml` and `?swagger` at the end of the base url to access it)
- New `router.version` parameter added, usage: `router.version('1.0.0')`
- [VIEWENTRIES\\_BY\\_CATEGORY\\_PAGED](#) strategy has been added (and [non paged version](#) as well)
- First implementation of Code Assist in DDE

and of course some bugfixes.
