OpenNTF Confluence

Welcome

Confluence is where teams collaborate and share knowledge — create, share and discuss your files, ideas, minutes, specs, mockups, diagrams, and projects.

To share content you will need to log on with your OpenNTF credentials. If you have not yet registered to OpenNTF, you can do so on the OpenNTF registration page.

Be sure to join OpenNTF on Slack by clicking on the icon below. Lookout for the Slack "xpages-knowledge-base" channel if you are interested in contributing.

New: Community Guides
Updated December 2020

This page hosts a set of guides that have been authored by our awesome community. These guides range from technical installation and configuration instructions to programming best practices. Each guide includes the name of the community member(s) who have contributed it. You are welcome to offer feedback and questions, and you can contribute to new versions too.

New (December 2020): HCL Domino SSO with AzureAD contributed by Kris de Bisschop

New (November 2020): Installation of Docker on Domino contributed by Roberto Boccadoro

New (November 2020): Step by step installation of HCL Sametime Meetings V11.5 contributed by ALES LICHTENBERG

XPages Knowledge Base Listing

A category is used to group together a list of spaces. You can display a category’s spaces by selecting a category from below:
